Correcting Fallacies About Educational and Psychological Testing (Hardback)

By -

American Psychological Association, United States, 2009. Hardback. Book Condition: New. 254 x 183 mm. Language: English . Brand New Book. Standardized testing is used for diagnosis, selection, and achievement measurement by individuals in many fields, including psychology, education, employment, and professional credentialing. Its benefits are numerous, substantial, and scientifically proven. However, these benefits are not well articulated or well publicized. In their technical communications, measurement specialists are generally positive about the worth of standardized testing. Meanwhile, those who engage public debate, such as journalists and certain special interest groups, tend to be less scientifically informed and more negative about the value of testing. The contributors to this volume contend that most criticisms ignore readily accessible scientific evidence and have the unfortunate effect of discrediting the entire testing enterprise. Standardized testing bears the twin burden of controversy and complexity and is difficult for many to understand either dispassionately or technically. In response to this reality, Richard P. Phelps and a team of well-noted measurement specialists present this book as a platform where they: describe the current state of public debate about testing across fields; explain and refute the primary criticisms of testing; acknowledge the limitations and undesirable consequences of testing; provide suggestions for...

Reviews

An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It's been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.

-- **Beverly Hoppe**

Extremely helpful for all class of individuals. Better than never, though I am quite late in starting reading this one. I realized this publication from my I and dad suggested this ebook to discover.
