Peacock/ Atlantic Publishers & Distributors (P) Ltd., 2009. Softcover. Book Condition: New. Loop the Loop, also known as Slitherlink, Fences, Takegaki, Ouroboros and Dotty Dilemma, is a logic puzzle. It is played on a rectangular lattice of dots. Some of the squares formed by the dots have numbers inside them. The objective is to connect adjacent dots horizontally and vertically so that the lines form a single loop with no loose ends. In addition, the number inside a square represents how many of its four sides are segments in the loop. The Sudoku and Loop the Loop are truly among the best mind games developed so far, but what makes them even better is the innovative edge and approach with which the puzzles have been developed. The book presents a wonderful blend and variety of Sudoku. Kids Sudoku is mainly intended for a light warm-up for the brain. It keeps the interest of the kids intact and becomes more tough with the 6x6. In fact, the puzzle becomes more challenging with every stage and of course, if you opt for the difficult stage, be ready for a tough ride, not to forget the brain jostling 9x9 classic Sudoku which comes with a good measure of complexity and challenge. You can choose the level according to your expertise. The book Sudoku and Loop the Loop contains many variants of Sudoku such as Hyper Sudoku, X Sudoku-Version, Irregular Sudoku, 3D Sudoku Puzzle and many more to be unraveled, solved and enjoyed. It has been designed in such a way that it suits the needs of all the age groups. It holds particular interest for those who enjoy mind games. Contents : Preface; Sudoku; Introduction; Questions; Answers; Loop the Loop; Introduction; Questions; Answers Printed Pages: 126.
